Messages by Eminent Visionaries

From the Principal's Desk

Dear Parents,

The Pandemic has reiterated that in the world of change, nothing is constant. But what remains unchanged for us is the fact that each member of The Milestone Smart School fraternity strives to achieve this change with precision and focus, by working on every child's holistic development, in order to make them future ready Global Citizens. Education to us has always been a way of thinking, for it is one's ability to understand and reason things happening around and across nationalities and to find solutions to move ahead positively. We believe that it is important for a child to explore and find his strengths in order to reach his true potential. Whatever may be a child's personality, our aim is to nurture the child into a self-confident individual who is always competing with his or her previous performance, participating in co-curricular activities and becoming responsible citizens. It is with this pride that we hold these high standards and ask each of our students to commit to maintaining the extraordinary record of achievement and contribution that has been the legacy of The Milestone Smart School.

We wish and hope that the session 2022-23 brings with it a Covid-free world, refreshed enthusiasm and renewed vigor of getting back to regular life with the new normal.
